Advertising Strategies

The key that unlocks the sales potential of your e-book is to find a single sentence that turns into your promoting handle. Then you'll want to use that sentence in every piece of sales and promotional material, and each time anyone asks you about your ebook.

In addition to promoting your books assiduously on-line, there are several different strategies that can make it easier to promote more books.

One is to give one thing away without spending a dime together with your e-book, equivalent to a useful bonus item. Or bundle several ebooks below one value, which lowers the value for every e book in the event that they have been sold separately.

An efficient approach for figuring out a price is to ship out a survey to your current customers. If these customers have already purchased an ebook from you, ask for his or her opinion when it comes to price. Do this by making a gross sales web page for the brand new book, but do not embrace a worth on that page. As an alternative, add a lot of hyperlinks to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

Another technique is to check out costs by making a number of duplicate sales pages with totally different prices on every page. Ensure your gross sales copy is precisely the same on every web

page, and contains your selling-handle sentence. Then determine for each web page the conversion ratio between visitors to your site and gross sales of your book. This may tell you what your optimum price is.

In the end, for those who've written a e book that solves a drawback or presents a brand new method, your book will bring in both site visitors and profits.
