One other technique is to test out costs by making a variety of duplicate sales pages with different prices on every page. Be certain your sales copy is precisely the identical on every web page, and consists of your selling-handle sentence. Then determine for each page the conversion ratio between visitors to your website and gross sales of your book. This may inform you what your optimum price is.

Finally, if you happen to've written a e book that solves a problem or presents a new method, your guide will herald both traffic and profits.
