An effective technique for determining a price is to send out a survey to your present customers. If these clients have already purchased an e-book from you, ask for their opinion when it comes to price. Do that by making a sales web page for the new book, but do not embody a price on that page. As a substitute, add a number of links to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

Another strategy is to test out costs by making a number of duplicate sales pages with different costs on every page. Be sure that your sales copy is exactly the identical on each page, and

consists of your selling-handle sentence. Then determine for each web page the conversion ratio between visitors to your website and sales of your book. This may tell you what your optimum price is.
